

## AMENDMENTS TO CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

### Listing of Claims:

1. (Original) A mobile computer tilting arrangement comprising:

a casing, said casing having a back side and at least two recessed locating holes respectively disposed in at least two corners of said back side;

two plugs to be respectively press-fitted to two of said at least two recessed locating holes adjacent to one same peripheral side of said casing, said plugs each comprising a center through hole, and a pin insertable into said center through hole to radially expand the respective plug into friction engagement with one of said at least two recessed locating holes of said casing into which the respective plug is press-fitted, said pin having an outer diameter greater than an inner diameter of said center through hole, wherein said plugs extend from locating holes to support said mobile computer.

2. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 1, wherein said plugs ~~comprising~~ comprise a head, and wherein said head ~~comprising~~ comprises a bottom side and upper surface.

3. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 2, wherein the bottom side of said head is stopped outside the back side of said casing when the plug one of said plugs is inserted into one of said at least two recessed locating holes of said casing.

4. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 2, wherein said head ~~comprising~~ comprises a recess on said upper surface of said head.

Serial Number 10/750,767

5. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 4, wherein said head further ~~comprising~~ comprises a finger notch disposed in the upper surface and connected to said recess.

6. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 1, wherein the outer surface of the shank of each of said ~~plug~~ plugs is peripherally ribbed.

7. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 1, wherein each of said plugs ~~are~~ is respectively molded from rubber.

8. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 1, wherein said at least two recessed locating holes ~~each are~~ each peripherally ribbed on ~~the~~ an inside wall ~~inside~~.

9. (Original) The mobile computer tilting arrangement as claimed in claim 1, wherein the pin of each of said plugs is respectively made from metal.

10. (Currently Amended) The mobile computer tilting arrangement as claimed in claim 1, wherein the pin of each of said plugs ~~each further comprising~~ comprises a pull tab at one end.

11. (Original) The mobile computer tilting arrangement as claimed in claim 10, wherein said pull tab is fastened pivotally with said end of said pin.

12. (Original) The mobile computer tilting arrangement as claimed in claim 10, wherein said pull tab is a pull ring.
